Protect your Jeep's interior with these two great Seat Cover options: 1) Custom Fit Neoprene Seat Covers 2) Custom Fit UV treated Poly Cotton Seat Covers from Rugged Ridge. These covers are constructed of either durable neoprene or tough poly cotton fabric creating the best looking custom seat cover available. Rugged Ridge does not use that cheap stretch nylon on their seat covers! Neoprene (wet suit material) is a great fabric to protect your seats from dirt, water and whatever mother nature can throw at you. Poly Cotton is a great fabric to protect your seats from dirt, sweat and heat from the sun. No more burned legs from hot vinyl seats! Each cover is custom tailored for your Jeep's original equipment seat style making your seats look like they have been recently re-upholstered. Installation is easy with special designed elastic cords, nylon straps and hooks that attach to your seat and to the seat cover mounting points. Available in black on black, gray on black, red on black (neoprene models only) and tan on black to complement virtually any Jeep's interior colors. 2003-2006 models have the center section stop before the headrest. All other models have the center portion (color) going all the way to the top of the seat.

High quality Neoprene protects your seats from water, dirt and heavy duty use.

Comfortable ploycotton seat covers keep the seats cool in hot sun while providing great protection.
